Action taken Report on Feedback on Curriculum 2018

In the 16th board of studies meeting (UG) which was held on 23rd February 2018 members discussed on PCI syllabus. As per the feedback of teachers there are common chapters in theory and some common experiments in pharmaceutical analysis and pharmaceutical Inorganic chemistry of 1st Semester B Pharm program. However, members opined that no deletion is possible in PCI syllabus but only addition can be done as the syllabus is implemented by Pharmacy Council of India.

As per the feedback of external members, it was decided to provide checklist (marks distribution chapter wise for both MCQs and essay type questions) to the moderators. The practicals in HAP II; II Semester; all the experiments are demonstrative practicals, teachers and external members decided to include practicals, which have scope for evaluation like

- i. Determination of DLC
- ii. Determination of Platelet count
- iii. Recording of BP and its influence in exercise
- iv. Determination of body temperature.
